Xerox® Touchless Access App

Helping make the workplace safer for everyone

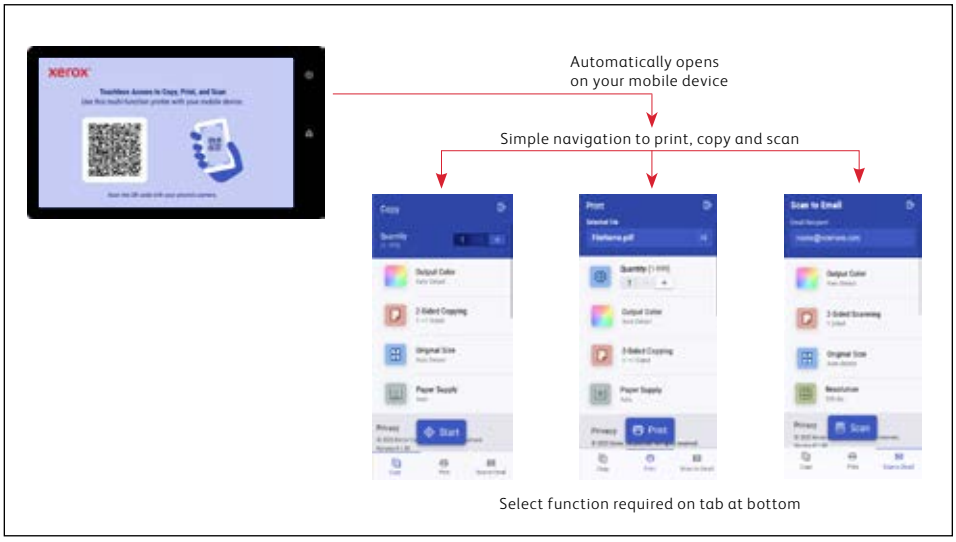

Considering today's health crisis, creating a safe workplace by minimizing touchpoints is of utmost importance. The Xerox® Touchless Access App helps keep your employees safe by reducing the need to touch shared multifunction devices. The App enables users to access printing, scanning, and copying services via their mobile devices.

HERE IS HOW IT WORKS

Xerox® Touchless Access App works on Xerox® AltaLink® and VersaLink® Multifunction Printers. You can connect to a device to copy, scan, and print without touching its controls. To put it simply – you get to access and execute the core services of Xerox® MFPs through your smartphones or tablets.

Xerox® Touchless Access App works via the cloud, removing the need for your mobile device connection to the organization's local IT network. This enables you to maintain all of the security you would expect from Xerox.

TOUCHLESS TECHNOLOGY TO ENABLE A SAFE WORKPLACE

Xerox® Touchless Access App is free for all AltaLink® and VersaLink® users. Download the App onto your MFPs from the Xerox App Gallery.

Convenient for users

- No mobile app to download – so you are ready to go
- Supports any mobile device or tablet
- Instant access to the printer without having to search for it
- Works with any mobile connection (cellular or wireless) – no network access headaches
- Self service, no need for IT support

Simple for administrators

Free to use – simply download the App onto your MFPs from the Xerox App Gallery and set the app as your walk-up service.

The app will display the QR code to allow your users to scan and connect to the services, presenting the control panel on their mobile device.

SCAN
Use your mobile device to scan the QR code on the front panel of the MFP

GO
Start the job from the mobile device and collect your document

TRANSFORM YOUR WORKPLACE WITH XEROX® CONNECTKEY® TECHNOLOGY

Xerox® ConnectKey® Technology transforms and adapts to the evolving needs of employees and new business challenges. Xerox® Touchless Access App clearly demonstrates this. As the business needs have changed due to outside influences such as health concerns, ConnectKey® gives you the flexibility to change your devices as needed to keep it up-to-date with the current user and market requirements.

ONE APPLICATION, MULTIPLE BENEFITS

Safety
Enhance workplace safety by minimizing contact with MFPs.

Accessibility
Take advantage of cloud technology via a simple mobile web app for fast access to print, copy, and scan functionality.

Security
Connect securely to the device via the cloud.

Convenience
Easy to set up with no IT support. No apps to download on your mobile device. Simply scan the QR code, and the progressive web app opens automatically and the device is ready to use.

SUPPORTED DEVICES

Available for all Xerox® AltaLink® and VersaLink® Multifunction Devices
